

DHANUSH J

JAVA DEVELOPER | JAVA | SQL | SPRING BOOT | REST APIs

Chennai, Tamil Nadu

[Phone](#) | [Email](#) | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.Tech graduate in Artificial Intelligence and Data Science with hands-on experience in Java, Spring Boot, REST APIs, SQL and MySQL. Built full-stack applications with secure REST APIs, authentication, database integration and automated testing. Seeking an entry-level Java Developer opportunity.

SKILLS

- **Programming:** Java, SQL, Python, JavaScript, TypeScript
- **Core Concepts:** OOP, Collections, Exception Handling, File Handling, Database Integration
- **Backend & APIs:** Spring Boot, Spring MVC, REST APIs, JDBC
- **Databases & Frontend:** MySQL, SQLite, React, JavaScript
- **Tools & Platforms:** Git, GitHub, Maven, Docker, Postman, VS Code, Jupyter Notebook

EXPERIENCE

Java Development Intern Dec 2024 – Feb 2025

SvCode Tech Solutions

Java | OOP | File Handling

- Built a Library Management System applying core OOP concepts, enabling adding, updating, deleting, and searching books by title, author, or ISBN
- Developed a Simple Banking System supporting account creation, deposits/withdrawals, and transaction history, using exception handling and Java collections.

PROJECT

CareerForge — Career & Recruitment Management Platform | [GitHub](#) Jun 2026 – Aug 2026

Java 17 | Spring Boot | Spring Security | JWT | MySQL | React | Docker

- Developed a full-stack career and recruitment platform with separate student, recruiter, and administrator workflows for job discovery, applications, recruitment, and profile management.
- Built secure REST APIs using Spring Boot and Spring Security with JWT access/refresh tokens, BCrypt password hashing, role-based authorization, validation, and centralized exception handling.
- Implemented 266 automated unit and integration tests covering authentication, APIs, business logic, and database workflows.
- Implemented resume management, skill-based matching, applicant tracking, interview scheduling, notifications, and persistent MySQL storage; deployed using Vercel, Railway, and Docker.

Code Tracker – Personal Coding Practice Analyzer | [GitHub](#)

Apr 2026 – Jun 2026

Java | OOP | JDBC | MySQL | Spring Boot

- Built a full-stack coding practice tracker with problem tracking, analytics dashboards, progress reports, and streak monitoring using OOP and modular design.
- Implemented persistent storage (File Handling, JDBC/MySQL) and a RESTful Spring Boot + React architecture for scalable CRUD operations and real-time statistics.

Meeting Summarizer — Real-Time Meeting & AI Summarization Platform | [GitHub](#)

Nov 2025 – Mar 2026

Python | React | TypeScript | FastAPI | WebRTC | MediaPipe | Gemini API

- Built a WebRTC-based video meeting app with live transcription, speaker identification, and face-detection engagement tracking.
- Used Gemini AI via a FastAPI backend to auto-generate meeting summaries, action items, decisions, and translated transcripts, multimodal engagement tracking (MediaPipe) and PDF reports.

EDUCATION

- **Rajalakshmi Institute of Technology, Chennai** Nov 2022 – Apr 2026
B.TECH In Artificial Intelligence and Data Science
CGPA – 8.28
- **Sree Venkateshwara Matriculation Higher Secondary School, Chennai** Jun 2021 – May 2022
HSC – 91.6%
- **Sree Venkateshwara Matriculation Higher Secondary School, Chennai** Jun 2019 – May 2020
SSLC – 90.6%
